

Labour Force Survey Report

Prince Edward Island

June 2026

WorkPEI

July 13, 2026

Every month, Statistics Canada releases Labour Force Survey (LFS) data. The releases include unadjusted and seasonally adjusted data related to the local labour market (labour force, employment and unemployment). The data presented in this report has been adjusted for seasonality. Most estimates associated with the labour market are subject to seasonal influence in which the data experiences regular and predictable changes that recur every calendar year (i.e. due to climate, vacations, holidays, etc.). The employment figures presented in the LFS is an estimate of employed Island residents and should not be interpreted as number of jobs (as reported in Statistics Canada's Survey of Employment, Payroll and Hours).
